STAT

Dear 

As we discussed on the telephone, the Coast Guard Academy Political Affairs Association has scheduled its annual briefing trip to Washington, D.C. for 18-20 April 1985. There will be two (2) military faculty advisors and sixteen (16) cadets participating; the cadets have been competitively selected on the basis of academic and military criteria, with a majority of them pursuing a political science major. All of the participants have confirmed SECRET access.

In accordance with your arrangement for an Agency briefing, the Coast Guard Academy contingent will arrive at CIA Headquarters by 1420, 18 April 1985. Several days prior to our arrival, you will receive a roster which indicates every participant's full name, rank, SSAN, DOB and security access confirmation.

For your information, the focus of this year's briefing trip will be national security policy with the emphasis on arms control. Given the quality of Agency presentations in past years, I am confident that the briefings you have scheduled on US-USSR relations and naval intelligence concerns will prove very valuable.

Thank you for your time and assistance with this project. Please do not hesitate to call should you need further details concerning our visit.

Sincerely,

F. M. ROSA, JR.
Lieutenant, U.S. Coast Guard
Project Officer
